**DETAILED ACTION**

1. Claims 1, 2, 4-6, 9, 11-13, 16, 17, 19-21, 24, 26-28, 31-33 and 46-49 are pending,
2. Amendment filed 07/07/2008 has been received and considered.

**EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark J. Danielson (Reg. No. 40,580) on 10/29/2008.

The application has been amended as follows:

46. (Currently Amended) A method according to ~~claim 43~~ claim 1, wherein at least one of the resource identifiers in the system-wide list is the 911 telephone number, and

wherein the first determining step includes determining whether the dialed telephone number is 911, and

wherein the permitting or denying the requested network communications includes always permitting the requested network communications if the dialed telephone number is 911.

47. (Currently Amended) A method according to ~~claim 43~~ claim 1, wherein at least one of the resource identifiers in one of the plurality of lists is a dialing prefix, and

wherein the next determining step includes determining whether the dialed telephone number includes the dialing prefix while disregarding any other digits in the dialed telephone number, and

wherein the step of requiring the requesting party to input a personal identification number includes always requiring the requesting party to input the personal identification number if the dialed telephone number includes the dialing prefix.

***Allowable Subject Matter***

4. Claims 1, 2, 4-6, 9, 11-13, 16, 17, 19-21, 24, 26-28, 31-33 and 46-49 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art teaches checking lists for blocked resources including phone numbers and teaches checking a single list in a HLR/VLR. However, the prior art fails to teach or render obvious "the requested resource identifier includes a telephone number dialed by the requesting party, and wherein the concurrently maintaining step includes augmenting HLR/VLR services of a mobile telephone service with the system-wide list and the separate and distinct plurality of lists and wherein the receiving step includes providing the request to the augmented HLR/VLR services, and wherein the first determining step includes comparing, using the augmented HLR/VLR services, the telephone number with the plurality of identifiers in the system-wide list, and wherein the step of retrieving the subscriber identifier includes extracting an International Mobile Subscriber Identity (IMSI) associated with the request, and wherein the step of retrieving one of the plurality of lists includes consulting the HLR portion of the augmented HLR/VLR services using the extracted IMSI" in combination with the remaining portions of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Valentine and Lu et al. teach call blocking based on a list at the HLR/VLR.
